[REDACTED] Comment. It appears that no essential changes were observed in the occupation of the military posts. It can be assumed that the following units were stationed at the troop training grounds at Doellersheim during the period under review: Parts of the 284th Gds Mtz Rifle Regt of the 95th Gds Mtz Rifle Div in Eisenstadt, and parts of the Gds Mecz Regiments of the 13th Gds Mecz Div from Vienna and Klosterneuburg. The engineer battalions of the two divisions were probably stationed at the engineer training grounds northeast of Melk. A motor-vehicle repairshop, probably belonging to the 23rd AA Div, was listed in Langenzersdorf, and was apparently evacuated.
